

NOT SO HERE!

As the season advances you can expect your iceman's diamond to grow bigger and your piece of ice grow smaller. We don't do business on that principle. We give you a big money's worth at the beginning of the season and a much bigger as the season advances. For instance, just now we are having our Annual Midsummer "Clearance Sale" to close out the balance of all Spring and Summer Suits, and while others may take bigger space and fill it with extravagant boasts, we challenge any of them to give as good value as we are giving. Just read this small type:

Men's Suits Reduced.

Games Today Philadelphia at Washington Baltimore at Frocklyn, Chicago at Pittsburg, New York at Bost, a. St. Louis at Cincinnati,

Rain prevented a game at National Park resterday liftermoon, the ficed reserving itself all day that it might pour in a ter-

rent at 4 o'clock.

Despite the threatening clouds an audience of 2.00 o'gathered at the park, three-fourths of whom were ladies.

The clubs were ready for the struggle, but the grounds would not permit, and after waiting until nearly 5 o'clock, during which time there was no cessation, the game was officially declared off.

In lieu of the mesappointment to the ladies and that it will be the last appearance of the Philadelphia club at National Park until next fall, Pusiness Manager Shotts-line and Capt, Nash gave their cheerful consent to Mr. Wagner's proposition that ladies holding cards be admitted free today.

The program yest-riday slated "Silver' King and Carsey as the opposing pitchers. It is not probable that there will be change this afternoon. The usual band concert will be given before the game.

Brooklyo, June 16.—The game today was a battle between the two pitchers, and Hemming had slightly the best of the argument, as he kept the Brooklyns' hits scattered, while the visitors hit Abbey for two singles and a double in the sixth inning. The Baltimores played a steady fielding game, Donnelly and Jennings carrying off the honor. Shindle made the star catch of the game, a foul fly near the picket fence. The score:

The crowd took a hand in the game about the sixth inning, when they tried by every method in their power to rattle Wallace, as the Cleveland coachers were trying to rattle Payne, but without success. The Cleveland twirler's nerve soon brought cheers of admiration.—Brooklyn Eagle.

Been Completed.

The program for the Morion Cadels' field day, to be held at International Athletic Park, on the Great Falls Electric Rallway, on Baturday afternoon, 20th lostant, is now complete and fully arranged.

The afternoon will be filled in with novel and entertaining features and two exciting bleycle races.

The inter will have in them all the crack riders of the District, as well as several from out of town.

Among those entered from this city are: Fred Schade, the Southern champion and the recent winner of the intercollegiate five-mile championship of this country, and Fred Simms, whose record is a brilliant one, and whose splendid riding and victories of Decoration Day are still fresh in the minds of the many who attended on that occasion.

The large list of entries has been drawn out by the splendid prizes offered by the management, diamond rings and scarfpins being the principal prizes.

The races will berin at 4:30 o'clock sharp. The management promises that there will be prompt and ample railway accommodations for the large crowd which will undoubtedly attend.

In addition to the races, the Morton Cadets, champion drill team of the country, the recent winners at Savannah, wilkrive their several drills in full, attended by the social and other features which marked that great military event, including the fair sponsor and her maids.

The Mr. Pleasant Field Band will famish the music for the occasion.

The patronesses for the occasion, who will aid in making the vent a great social affair, are among the best known of local society ladies.

Following are the entries for the bicycle races in full. The handicaps for the second race will, of course, not be given out until the day of the race:

One nile open race—First prize, solitaire dianond ring, \$30; second, garnet scarf in, \$20; third, diamond and garnet ring, \$15.

Poor Pat Tebeau must be ready for the asylum. Losing three straight to Brooklyn, when winning any one of them would have put his team into first place, is enough to craze as well a halanced men as the clever manager of the Spiders, it is the unexpected that happens in baseball.—Cincinnati Tribune.

Upon Buck Ewing's Braves' return to Cincinnati from their fairly successful Eastern trip the fans of Porks polising athered bette thousands at the railroad station to welcome the warriors. Easeball is a very lively institution at Cincinnati this season, and the greatest measure of praise therefore belongs to Manager Captain Ewing.

The Senators will leave on their Eastern trip in the morning and will play Boston. New York and Baltimore before returning. Tomorrow afternoon they will play the Orange Athletic Club at Orange, N. Tomorrow afternom they will play the Orange Athletic Club at Orange. N. J. Which is on the outskirts of Newark. Next Sunday they will play the Providence club of the Eastern League at Providence.

After his ten days bodice of release had expired, Varuey Anderson signed with Western League. Varuey is having great success in his new connection. In a recent game he let the hard-hitting Kansas City aggregation down with five scratch hits. The local fans wish Varuey good lick; a more gentlemanly ball player never wore a Senator's uniform.

While the Senators are away on the Eastern trip the games will be faithfully portrayed at Kornan's by the best method in existence. The first game will be between Washington and Boston at Roston Friday afternoon. The game at Providence next Sunday between the Senators and the Eastern Leaguers will also be reproduced. Game called at the theater at 4.15 o'clock sharp.

Yesterlay's results furnished no satisfaction to the local fans except Baltimore's defeat of Brooklyn, which showed the lindegrooms several points down the ladder and made a good big gap between the Senators. But Joyce's men are after "big game," and that rain orevented an almost sare victory from Philadelphia, and that Cheinnati and Boston won from St. Louis and New York respectively, added a cloud to as dreary and dismal an afternoon as ever beful the loi of a ball club.

Of the game between New York and Pittsburg in which little Johnny Foreman threw the Giants down so hard "Hig Eill" Knarr of the World writes as follows: "A little baseball midget, built upon the "Tot" Murphy line, overthrew the Giants. It was Johnny Foreman, who is about knee-high to a grasshopper, but can jutch hall to beat all creation. It was laughable to see the boy keep down the heavy men of the New York team to three hits in nine innings. The spectators were so taken with his wonderful skill that toward the latter part of the game there was appliance a plenty for the little fellow. Pereman is left-handed, and it is not be game the provided an

making what otherwise would have been a sure shut-out."

In the New York Herald O. P. Caylor says: "The penment race will not be a walkover for any cith. Beltimore has, from this view of the straggle, the best chance, with Cleveland and Eoston next in order, as named. But the unexpected is always happeuing. An accident here or there may put the most promising team out of the race in two weeks, and s. me team which seems to be an impossible facter may take up one of the se remarkable 'sparts' so common in basebalt and rush right to the front in a month's time. The fact that the best pitchers in the League, such as Young, Cuppy, Nichols, Mercer, Griffith, McMahon, Taylor, Clarke, Meekin, Kennedy, Breitenstein and Dwyer, are pitching in and out hall-doing well one day and hit hard next game-makes the most shrewd prophet hesitate in predicting final results. The senson is not two months advanced and three months and a half remain. A great deal of surprise can come out of the sevence events of the season which remain unplayed."

Forfeit money has been deposited and the fight seems a sure go. Joe Bateman will train Daly, and both principals will commence work at once.

Prof. Daly is a stout, florid-faced man, some what older than his intended antagonist. He has a clean record in minor pugilistic circles, and on reputation should give Raedy a saiff argument.

Pat Raedy is well known locally and will have a bundle of money tehind him when he enters the ring against the invader.

JONES & BURR. 513 Ninth Street N. W. NHEEL CLUBS ARE AWAKE

Appointing Delegates to Attend Buy Monday Night's Meeting.

EVERY ONE ENTHUSIASTIC

Conservative Estimate Is That Fifteen

Thousand Wheels Will Be in Line. A Ladies' Division Marshaled by a Lady With Lady Aids-The Avenue to Be a Thing of Beauty.

Among wheelmen preparations for the great parade are now under way.

Everyone is talking about it. Wheelmen are studying out the most unique ways of decorating their wheels and guessing at the crowd that will turn out. Fifteen thousand wheels in line is the most conservative estimate made.

The date, the middle of July, seems to please everybody, and each one, seems to agree that a night parade is the only thing to be held under the circumstances. What a

to be held under the circumstances. Whata sight it will be, the Avenue lined from end to end and from curb to curb with handsomely decorated wheels and gay with lanterns. It will be a scene that will cause ven the stars to wink with envy.

COMMITTEE AT WORK.

The committee appointed by the League of American Wheelmen is already at work. It is the nucleus around which the parade is to gather. The committee will hold a special meeting Friday evening to outline some of the details of the affair and to arrange for the meeting of ciph delegates Monager for the meeting of the meeting the some of the details of the affair and to arrange for the meeting of club delegates Monday night. It is of great importance that every club in the city should be represented. This parade is for the wheelmen and the wheelmen must look after it.

Not a club in the city but has a right to attend and is most cordially invited. The invitation published in The Times vester day.

Not a can in the city but now a right to attend and is most cordially invited. The invitation published in The Times yesterday was official and means just what it said. A representative of every club in the city is wanted at this gathering. The committee wants the views of each club on matters of vital importance. This is the only way to get a full expression of views. Come to the meeting. You will be welcomed. The more the merrier.

Capt. J. J. King of the Liberty Club is one of the riders of the torth west who is arranging to either attend this meeting himself or have a delegate from the club present. He thinks the parade is going to be one of the greatest affairs ever seen "on earth." His club will turn out in a way to tickle the fancy of the most hardbeaded captain. In coming to the meeting Monday night do not forget the number, 431 Tenth street borthwest.

The military contingent of the parade

431 Tenth street northwest.

The military contingent of the parade is getting a great move on. It is whispered that in anticipation of the event one doughtly warrior, who commends a battalion, is learning to ride. Another is al-

ready an enthusiast and can "scorch" it with anybody. Both officers will furnish attractions in the line of parade hard to SOLDIERS AND LADIES. Capt. Wiggins of the Miles Cyclists is busy. He is sending invitations all through the Guard inviting riders to cost in their low for the evening with his command. It is thought now that the military contingent will be, as a whole, one of the most attractive features of the entire parade. The ladies are not to be left out, though There is to be a division of ladies, mar-shaled by a lady, who will have lady aids. Washington intends to show the world that she has women who could marshalan army. It will be undoubtedly the most attractive it will be undoubtedly the most attractive division of all. The only drawback will be that no bouquets can be thrown. Don't forget to send your club delegate to the meeting Monday night. Make a memorandom of the place of meeting— 431 Tenth street northwest.

In Surgent's Studio.

Sargent's studio is always a sociable place. Unlike many artists, the presence of visitors or companions does not disturb him when he is painting. He seems to work without obvious exertion even in h is intensest activity. "When his models are resting, he fills up the gap by strumming on the plane or guitar," says one of his friends; "his manner while at work is that of a man of consummate address and does not show physical or mental effort." He knows thoroagily well what he is about and what his copabilities are, so that while he searches the trath in his pictorial rendering of what is before him, and often repaints a part of his picture entirely in the effort to make it as perfect as possible, he works with confidence. He has never been allied with any revolutionary movements in art. 2444444444444444 with any revolutionary movements in art,

The Word "Derrick."

Derrick was indeed nothing more exalted than the Tyborn hangman of the early part of the seventeenth century, and his name figures frequently in plays of the period. For more than 100 years be gave his name to gibbets, whose "elevating" powers were applied in a more useful direction in the modern "derrick."—New York Mercurs.

Chronic Catarrh

CAN BE CURED.

An Open Letter. Dr. George W. Fischer, 617 14th St., N. W.

Dear Sir:-"I have used two and one-half bottles of your CATARRH CURE on my daughter who has suffered for four years from Catarrh. Her continual snuffing and hawking was pitiful. The third day after using your cure her complexion began to clear and she was brighter. In conjunction her hearing and voice was impaired—that is now entirely obliterated. I have tested this medicine thoroughly, and am convinced that it will alleviate and cure suffering humanity from this most disgusting and terrible disease. The manner in which it clears the nasal passages will convince the most skeptical as to its merits."
